PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms.

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

Application methods: Limited application can be conducted by utilizing a hand cranked, spreader or duster device. When using a hand crank device, carefully deposit product from the bucket or bag into the hopper of the device using a measuring cup consistent with recommended application rates. For more extensive applications, use an electric or gas powered blower unit capable of blowing 300 – 400 cubic feet per minute. Select blowers that have vacuum capability. Determine the amount of product needed for the area of application and pour directly from bag or bucket into a temporary storage container. Use the vacuum attachments which come with these units to draw up material directly from the temporary storage container. Due to the likelihood of dust in the air, use safety goggles and a dust mask when applying with blower units. Clean up any spillage during application and dispose of according to disposal instructions shown below.

Dosage rates: Add 1 pound of **Stalosan F** to every 100 sq. ft. If the area is badly affected, increase the dosage slightly. Initially apply **Stalosan F** once a day for 3 days. Continue treatment once a week, thereafter. **Stalosan F** can be applied while animals are present.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store this product in a cool, dry area away from direct sunlight and heat to avoid deterioration and in an area inaccessible to children.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Once bag is empty, dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
